

Technical Service Engineering Intern

Company: WeCo

Environment: Rapidly growing start-up with a dynamic team

Location: Headquartered in Choisy-le-Roi + homeworking (max 30%) + on-site locations

Travel: Willingness to travel extensively in France and internationally

Contract: Internship or Apprenticeship

Company Profile

The world is facing a water crisis. 47% of global citizens experience water scarcity at least one month per year. Despite this, Europeans flush 7 billion m³ of drinking water down the toilet annually. WeCo is the first technology to treat blackwater waste for recycling of water to cut water consumption by 97%. WeCo needs additional resources with creative, motivated, large-tasks and responsibilities' spirit for monitoring operating units and supporting growth beyond France into European and global markets. WeCo is offering the opportunity to learn and grow within our rapidly expanding business and play an integral role in commissioning new units, troubleshooting operating units and supporting clients in order WeCo to become the world leader of sustainable and innovative water & sanitation solutions to global markets.

Main Responsibilities

- Support to the technical team
- Installation and commissioning of new systems
- Maintenance and servicing of operating systems
- Operational monitoring and troubleshooting of operating systems
- Propose, test and implement creative solutions to resolve problems
- Work with multifunctional teams to optimize unit design and performance

Your Profile

- Engineering / technical Training
- Broad perspective across wastewater treatment operations
- Looking for a fast-paced international environment with dynamic colleagues
- Willingness to work on a wide range of tasks
- Resourcefulness and creative problem solving
- Knowledge in hydraulics, instrumentation and electrical systems
- Fluency in French and English

Your willingness to learn, get involved, take responsibility and your enthusiasm for working in a dynamic, fast-paced and multi-tasking environment will be key to your success in this role. If this sounds like you, please send your CV and any elements demonstrating your motivation to Ms. Carine MINEAU at mineau@weco-toilet.com.
